Technology That Teaches

One of the most exciting aspects of Camp Fire School Smart is an interactive learning program using PlayStation®2 computer entertainment systems developed for the PLATO Learning® "Achieve Now" program.

This interactive curriculum has been proven to increase academic achievement in reading, language arts and mathematics for students

K-8. Students receive direct instruction from tutors and use technology that is fun, captivating and designed for success. Their reading and mathematics skills improve as they work on lessons that are colorful and engaging. Best of all, they will get the help they need.

PLATO® Achieve Now Adventures are filled with engaging, interactive activities that will keep your child motivated to continue learning.
